Healthcare Management System

Overview

Odoo's Healthcare ERP system is a complete solution made to simplify and improve the complex procedures of managing healthcare. In a single, easy-to-use platform, it combines all essential features, including patient management, doctor schedules, appointment scheduling, surgeries, and specialty divisions like nursing, pediatrics, and ophthalmology.

Healthcare providers can use this technology to streamline operations and guarantee smooth departmental communication, which will improve the quality of care and operational effectiveness. Additionally, the system facilitates the scheduling and tracking of surgeries and treatments, guaranteeing that they are scheduled and carried out without delays or overlaps, hence improving resource utilization while minimizing inefficiencies.

The Healthcare ERP system improves nursing and administrative staff tasks like patient admission, discharge, and billing. Healthcare workers can contribute more of their attention to patient care rather than paperwork by automating repetitive tasks. This integrated platform is a useful tool for any medical facility looking for operational excellence and superior healthcare systems because it eliminates duplications and improves patient satisfaction.

Features

Health Center Management

The Healthcare Management menu provides a centralized system to manage health centers, buildings, wards, beds, operating theaters, and pharmacies. It allows efficient allocation of resources, tracking of facilities, and monitoring of patient accommodation and medical supplies, ensuring seamless operations across the healthcare facility.

It includes menus :

- Health centers
- Buildings
- Wards
- Beds
- Operating Theaters
- Pharmacies

Patient Management

The Patient Management menu helps track and manage patient information, medical treatments, emergency departments and medical histories. It simplifies issuing medical certificates and recording call logs, ensuring well-organized patient records.

It includes menus :

- Patients
- Inpatient Admissions
- Immunizations
- Medical Certificate
- Call Logs

Physicians

The Physicians Management menu centralizes the management of physicians, pharmacists, and related activities. It helps track prescriptions, conduct evaluations, and manage gynecology-specific workflows. The system also streamlines the registration process for walk-in patients, ensuring quick and efficient care delivery.

It includes menus :

- Physicians
- Pharmacist
- Prescriptions
- Evaluations
- Gynecology
- Register for Walkins

Appointments

The Appointments menu facilitates seamless scheduling and management of patient appointments. It allows patients to book consultations, reschedule, or cancel appointments while providing physicians with a clear schedule view. This ensures minimal wait times and efficient utilization of resources across departments.

Laboratory

The Laboratory menu streamlines the management of lab tests and related activities. It enables the creation, scheduling, and tracking of lab test requests while maintaining accurate records of results. This ensures efficient coordination between healthcare staff and laboratory operations.

It includes menu:

- Lab tests

Surgeries

The Surgeries menu manages surgical procedures and pre-surgery assessments, ensuring streamlined workflows and accurate documentation. It includes tools for calculating the Revised Cardiac Risk Index (RCRI) and tracking surgery details, helping healthcare providers deliver safe and efficient surgical care

It includes menus :

- Revised Cardiac Risk Index
- Surgeries

Ophthalmology

The Ophthalmology menu is designed to manage eye care services, including patient examinations, diagnostic tests, and treatments. It supports the tracking of vision tests, prescriptions for glasses or contact lenses, and surgical procedures, ensuring comprehensive ophthalmic care.

Pediatric Symptom Checklists

The Pediatrics menu is related to the management of pediatric care, with an emphasis on the health of children from birth to teenyears. It provides resources for monitoring vaccinations, growth milestones, and common pediatric illnesses, guaranteeing that young patients receive comprehensive care.

Imaging

Imaging Tests

The Imaging menu manages all diagnostic imaging tests, allowing healthcare providers to request, track, and review results for procedures such as X-rays, MRIs, and ultrasounds. It ensures accurate documentation and easy access to imaging records for quick and informed decision-making.

Nursing

The Nursing menu supports nursing staff in managing patient care through daily roundings and ambulatory care activities. It enables nurses to track patient progress, administer treatments, and coordinate with other healthcare teams to ensure optimal patient outcomes.

Configuration

- For Configuration follow these steps : Settings --> Hospital
- The Settings menu enables you to control user access to various menus and configure the charges for both new appointments and follow-up appointments.

The screenshot displays the 'Settings' interface for 'v18_healthcare'. The top navigation bar includes 'Settings', 'General Settings', 'Users & Companies', 'Translations', and 'Technical'. The user is logged in as 'Mitchell Admin' for 'My Company (San Francisco)'. The 'Settings' page has a left sidebar with 'General Settings', 'Hospital', 'Inventory', 'Invoicing', and 'Employees'. The 'Hospital' section is active, showing a list of medical services with checkboxes for enabling/disabling them. Below this is the 'Appointment' section with fields for 'New Appointment Fee' and 'Old Appointment Fee'.

Form View :

- This shows detailed description of immunizations.

The screenshot shows the 'Form View' for 'Cholera vaccine' in a hospital management system. The top navigation bar includes links for Hospital Management, Health Center Management, Patient Management, Physicians, Appointments, Laboratory, Surgeries, and Ophthalmology. The main content area displays the following details:

- Medicine Name:** Cholera vaccine
- Medicament Type:** Vaccine
- Sales Price:** 1.00
- Therapeutic effect:** (link to details)
- Pregnancy Warning:** (checkbox)
- Quantity On Hand:** 0.00
- Extra Info:** Two doses of Dukoral provide protection against cholera for 2 years. Shanchol™ and Euvichol® are essentially the same vaccine produced by two different manufacturers. They do not require a buffer solution for administration. They are given to all individuals over the age of one year.

At the bottom, there are buttons for 'Send message' and 'Log note', and a date stamp 'Feb 6, 2025'.

Dose Units

- This menu provides a list of dose units, ensuring standardized measurement and accurate administration of medications

List View :

The screenshot shows the 'List View' for 'Dose Units' in a hospital management system. The top navigation bar is the same as the previous screenshot. The main content area displays a table with the following columns:

Unit	Description
<input type="checkbox"/> mL	milliliter
<input type="checkbox"/> mg	milligram
<input type="checkbox"/> L	Liter
<input type="checkbox"/> kg	Kilogram
<input type="checkbox"/> mmol	millimol

On the right side, there is a sidebar menu with the following items:

- Imaging Test Types
- Pathology
- Diseases
- Disease Categories
- Health Products
- Medicines
- Immunizations
- Dose Units** (highlighted)
- Drug Routes
- Drug Forms
- Medicines Dosage
- Insurances
- Insurance Types
- Insurances
- Codes
- CPT Codes
- HCPCS Codes
- CVX

Drug Routes

This menu provides a list of drug routes, specifying how medications are to be used or administered ensuring proper usage guidelines.

List View :

The screenshot displays the 'Drug Routes' list view. The sidebar on the left contains a search bar and a list of drug routes. A dropdown menu is open, showing a list of categories including Imaging Test Types, Pathology, Diseases, Disease Categories, Health Products, Medicines, Immunizations, Dose Units, Drug Routes (highlighted), Drug Forms, Medicines Dosage, Insurances, Insurance Types, Insurances, Codes, CPT Codes, HCPCS Codes, and CVX. The main list of drug routes includes: Route, Apply Externally, Buccal, Dental, Epidural, Endotracheal Tube, Gastrostomy Tube, GU Irrigant, Immerse (Soak) Body Part, Intra-arterial, Intrabursal, Intracardiac, and Intracervical (uterus). The page number is 1-47 / 47.

Drug Forms

This menu provides a list of drug forms, categorizing medications by their physical form, such as tablets, capsules, or creams, to ensure proper handling and administration.

List View :

The screenshot displays the 'Drug Forms' list view. The sidebar on the left contains a search bar and a list of drug forms. A dropdown menu is open, showing a list of categories including Imaging Test Types, Pathology, Diseases, Disease Categories, Health Products, Medicines, Immunizations, Dose Units, Drug Routes, Drug Forms (highlighted), Medicines Dosage, Insurances, Insurance Types, Insurances, Codes, CPT Codes, HCPCS Codes, and CVX. The main list of drug forms includes: Form, Aerosol metered-dose, Aerosol with propellants, Bar chewable, Bead, Biscuit, Bolus, Capsule, Cartridge, Capsule delayed release, Cement, and Cord. The page number is 1-80 / 94.

Medicines Dosage

This menu provides a list of medicine dosages, specifying the appropriate amounts of medications to be administered, ensuring accurate treatment and patient safety.

EXTRA INFORMATION

Codes

CPT Codes

This menu provides a list of CPT codes, used to standardize and organize medical procedures and services effectively.

List View :

The screenshot shows the 'CPT Codes' list view. The top navigation bar includes 'Hospital Management', 'Health Center Management', 'Patient Management', 'Physicians', 'Appointments', and 'Laboratory'. The user is logged in as 'My Company (San Francisco)'. The main content area has a 'New CPT Codes' button and a search bar. Below is a table with columns 'Code' and 'Description'. The table lists four codes: 99396 (Physical checkup), 97110 (Therapeutic exercises), 93010 (Electrocardiogram Report), and 90999 (Dialysis Procedure). On the right, a sidebar menu shows 'Disease Categories', 'Health Products', 'Medicines', 'Immunizations', 'Dose Units', 'Drug Routes', 'Drug Forms', 'Medicines Dosage', 'Insurances', 'Insurance Types', and 'Insurances'. The 'Codes' section is expanded, showing 'CPT Codes' (selected), 'HCPCS Codes', and 'CVX'. A price column on the far right shows values: 700.00, 600.00, 1,000.00, and 10,000.00.

Code	Description	Price
99396	Physical checkup	700.00
97110	Therapeutic exercises	600.00
93010	Electrocardiogram Report	1,000.00
90999	Dialysis Procedure	10,000.00

HCPCS Codes

This menu provides a list of HCPCS codes, used for the classification and standardization of healthcare services, medical equipment, and supplies.

List View :

The screenshot shows the 'HCPCS Codes' list view. The top navigation bar is the same as the previous screenshot. The main content area has a 'New HCPCS Codes' button and a search bar. Below is a table with columns 'Code' and 'Description'. The table lists five codes: E0260 (Hospital bed, semi-electric), G0008 (Administration of influenza virus vaccine), J3490 (Unclassified drugs), A0429 (Ambulance service, basic life support, emergency), and A0428 (Ambulance service, basic life support, non-emergency). On the right, the sidebar menu is the same, with 'HCPCS Codes' selected under the 'Codes' section. A price column on the far right shows values: 0.00, 0.00, 0.00, 0.00, and 0.00.

Code	Description	Price
E0260	Hospital bed, semi-electric.	0.00
G0008	Administration of influenza virus vaccine	0.00
J3490	Unclassified drugs	0.00
A0429	Ambulance service, basic life support, emergency	0.00
A0428	Ambulance service, basic life support, non-emergency	0.00

EXTRA INFO
Travels 2-4 times a month due to business requirements.

- This page is designed to capture comprehensive socioeconomic details about the patient.
- It includes fields to document the family APGAR score, which assesses family functioning and support, along with any family-related concerns or issues that may impact the patient's overall well-being.
- These details provide valuable insights into the patient's social and economic environment, aiding in personalized care planning.

The patient's menu includes various smart buttons, as shown in the diagram, offering quick access to key details and records:

- The 'Imaging' button displays all imaging tests conducted for the patient.
- The 'Lab Tests' button provides access to the patient's previous and current lab test results.
- The 'Appointments' button allows you to create and manage the patient's appointments.
- The 'Prescriptions' button lists all prescriptions issued by the doctor, with an option to send them directly to the pharmacy.
- The 'Immunizations' button shows the patient's immunization records.
- The 'Admissions' button provides details of the patient's hospital admissions.
- The 'Invoices' button lists all invoices generated for the patient during their treatment.
- The 'Call Logs' button enables you to view and manage the patient's call history.
-

Additionally, you can create and manage new records directly through these smart buttons for seamless data handling.

Patient Card Patient Report

Patient Name
Aarav Sharma

Patient ID [?] HP0001 Date of Birth 05/17/2002

Patient Age [?] 22 years 279 days Marital Status Single

Blood Type A Gender Male

Rh + Family Physician [?] Dr. Michael Brown

Institution Physiotherapy Center Responsible Odoo User Mitchell Admin

By using this 'Patient Card' button you can print the patient card which can be used by the patient when the he/she should visit the hospital next time.

Patient Card :

My Company (San Francisco)
Rakesh Sharma

Dob : 07/05/1989 Gender : Male

Age : 35 years 134 days Marital Status : Married

The screenshot shows a web application interface for patient management. At the top, there's a navigation bar with 'New Patients' and a search icon. Below it, a tabbed interface shows 'Patient Card' and 'Patient Report' (the latter is highlighted). The 'Patient Report' tab displays patient information for Aarav Sharma. The information is organized into two columns. The left column includes Patient Name, Patient ID, Patient Age, Blood Type, Rh, and Institution. The right column includes Date of Birth, Marital Status, Gender, Family Physician, and Responsible Odoo User. A profile picture placeholder is visible on the right side of the patient information section.

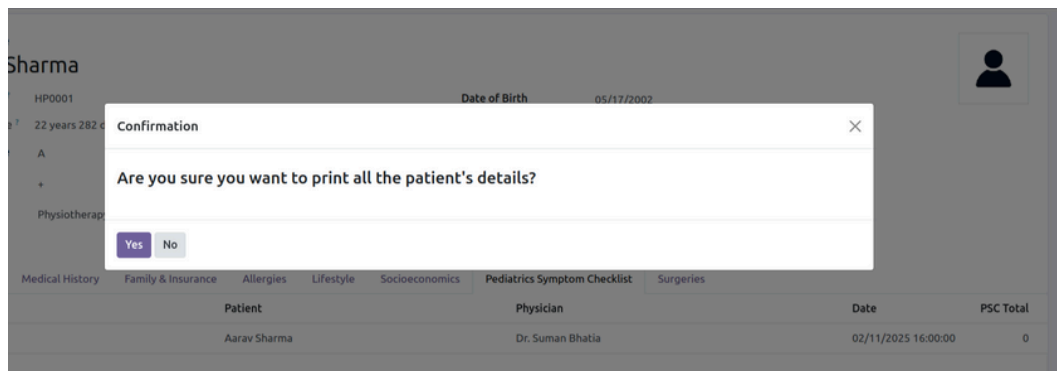

Patient Information	
Patient Name	Aarav Sharma
Patient ID	HP0001
Patient Age	22 years 276 days
Blood Type	A
Rh	+
Institution	Physiotherapy Center
Additional Information	
Date of Birth	05/17/2002
Marital Status	Single
Gender	Male
Family Physician	Dr. Michael Brown
Responsible Odoo User	Mitchell Admin

- The 'Patient Report' button allows you to generate and print a report for the patient.
- Clicking the 'Patient Report' button opens a wizard, as shown in the screenshot below.
- In the wizard, you can select the specific data you wish to include in the report.
- Once you've made your selections, simply click the 'Print' button to generate the report.

The screenshot shows a 'Patient Report Wizard' dialog box. It has a title bar with a close button (X). The dialog contains two columns of checkboxes, all of which are checked. The left column includes 'Medical History', 'Allergies', and 'Surgeries'. The right column includes 'Prescription', 'Lab Tests', and 'Imaging'. At the bottom of the dialog, there are two buttons: 'Print' (highlighted in purple) and 'Cancel' (light gray). Below the dialog box, a table shows the patient's name, the physician's name, and the date.

Patient	Physician	Date
Aarav Sharma	Dr. Suman Bhatia	02/11/2025 1

- If you choose not to print the report, simply click the 'Cancel' button.

- If no option is selected, a confirmation wizard will appear as shown in the screenshot above.
- Clicking 'Yes' will print the report with all the necessary details of the patient.

- In this list view, you can see basic details of the physician menu, including the doctor's name, work address, license ID, and specialty.

Form View :

The screenshot shows the 'Physician' form view for Dr. Amit Choudhary. The top navigation bar includes 'Hospital Management', 'Health Center Management', 'Patient Management', 'Physicians', 'Appointments', 'Laboratory', and a user profile for 'My Company (San Francisco)'. Below the navigation bar, there are tabs for 'New Physicians', 'Appointments', and 'Prescriptions'. The main form area displays the following information:

Physician Name Dr. Amit Choudhary			
Speciality ?	Dermatology	Consultancy Type ?	Residential
Pharmacist?	<input type="checkbox"/>	Consultancy Charge ?	1,500
Graduation Institute ?	General Hospital	Licence ID ?	ML-98765465
Degrees	D.O. X	Responsible Odoo User	Mitchell Admin

- The screenshot above shows the form view of the Physician menu, which provides detailed information about the physician.
- It also includes two smart buttons, 'Appointments' and 'Prescriptions,' allowing you to view, create, and manage appointments and prescriptions.

The screenshot shows the 'General' tab of the Physician form view. The tabs at the top are 'General', 'Weekly Availability', 'Extra Info', and 'Walkin Schedule'. The 'CONTACT INFORMATION' section displays the following details:

Working Institution	My Company (San Francisco) 250 Executive Park Blvd, Suite 3400 San Francisco CA 94134 United States	Work Phone	+1 555-555-5556
Work Mobile		Work Location	United States
Work Email	amit@gmail.cpm		

- This page provides details about the institution where the physician is employed, including comprehensive information about the institution.

The screenshot shows the 'Weekly Availability' tab selected. It includes a section 'Allow Appointment on?' with a sub-label 'On Weekly Schedule'. Below this is a table with three columns: 'Available Day(s)', 'Start Time (24h format)', and 'End Time (24h format)'. The table lists Tuesday, Wednesday, and Thursday, each with a start time of 10:00 and an end time of 14:00. There is a trash icon next to each end time. At the bottom of the table is a link 'Add a line'.

Available Day(s)	Start Time (24h format)	End Time (24h format)
Tuesday	10:00	14:00
Wednesday	10:00	14:00
Thursday	10:00	14:00

[Add a line](#)

- This page is used to set the physician's weekly availability at the health center.

The screenshot shows the 'Extra Info' tab selected. It contains a text area with the following text: "Dr. Amit Choudhary specialises in diagnosing, treating, and preventing diseases related to the heart and blood vessels. Can manage conditions such as coronary artery disease, heart failure, arrhythmias, and high blood pressure."

- We can add extra information regarding physicians in needed in the extra info page

The screenshot shows the 'Walkin Schedule' tab selected. It contains a table with two columns: 'Start Date' and 'End Date'. The first row shows the dates 02/11/2025 and 02/14/2025, with a trash icon at the end of the row. Below the table is a link 'Add a line'.

Start Date	End Date
02/11/2025	02/14/2025

[Add a line](#)

- The Walk-in Schedule of Physicians page allows you to manage and view the availability of physicians for walk-in appointments, ensuring seamless patient flow and effective scheduling.

Pharmacist

Here is the kanban, list and form view of the pharmacist menu.

Kanban View :

The Kanban View displays a grid of pharmacist cards. Each card includes a profile icon, name, specialty, and company. A dropdown menu is visible for 'Abiga', showing options like 'Physicians', 'Pharmacist', 'Prescriptions', 'Evaluations', 'Gynecology', and 'Register for Walkins'.

Name	Specialty	Company	Qualifications
Diya	Alternative Medicine	My Company (San Francisco)	B.Pharma
Abiga	Alternative Medicine	My Company (San Francisco)	B.Pharma
Dr. Sneha Sharma	Alternative Medicine	My Company (San Francisco)	B.Pharma
Dr. Amit Verma	Urgent Care Medicine	My Company (San Francisco)	B.Pharma, B.Sc Nursing
Dr. Priya Nair	Family Medicine	My Company (San Francisco)	B.Pharma
Dr. Karan Mehta	Forensic Medicine	My Company (San Francisco)	B.H.M.S.
Dr. Neha Agarwal	Family Medicine	My Company (San Francisco)	B.Pharma
Dr. Ramesh Iyer	Urgent Care Medicine	My Company (San Francisco)	B.Pharma, B.H.M.S.

List View :

The List View displays a table of pharmacist information. The table has four columns: Employee Name, Work Address, Licence ID, and Speciality. The data is as follows:

Employee Name	Work Address	Licence ID	Speciality
<input type="checkbox"/> Diya	My Company (San Francisco)	PH-24789156	Alternative Medicine
<input type="checkbox"/> Abigail Peterson	My Company (San Francisco)	RX-90871234	Alternative Medicine
<input type="checkbox"/> Dr. Sneha Sharma	My Company (San Francisco)	PHM-56273849	Alternative Medicine

PATIENT COMPLAINT

Patient Complaint ? No Complaints

PHYSICIANS ASSESSMENT

Physicians Assessment ? Reviewed travel history, check for signs of shock or organ failure, and order tests such as CBC, dengue NS1 antigen, and IgM/IgG antibodies for confirmation.

INFORMATION ON DIAGNOSIS

His CBC shows leukopenia and thrombocytopenia. An NS1 antigen test confirms a dengue infection, and IgM antibodies appear elevated, indicating recent exposure.

TREATMENT PLAN

Fluid management to prevent dehydration and shock, acetaminophen for fever and pain relief, and monitoring for complications like bleeding or organ failure. Severe cases may require IV fluids and close observation in a hospital for dengue hemorrhagic fever or shock syndrome.

DIAGNOSIS

Indication ? Dengue fever [classical dengue]

SOAP Note

Patient Complaint

No Complaints

Physicians Assessment

Reviewed travel history, check for signs of shock or organ failure, and order tests such as CBC, dengue NS1 antigen, and IgM/IgG antibodies for confirmation.

Diagnosis

Disease Name	Code	Disease Category
Dengue fever [classical dengue]	A90	(A90-A99) Arthropod-borne viral fevers and viral haemorrhagic fevers

Information on Diagnosis

His CBC shows leukopenia and thrombocytopenia. An NS1 antigen test confirms a dengue infection, and IgM antibodies appear elevated, indicating recent exposure.

- This list view of the walk-in register provides a basic overview of the details of patients who have registered for walk-ins.

Form View :

The screenshot shows a web application interface for patient management. The top navigation bar includes links for Hospital Management, Health Center Management, Patient Management, Physicians, Appointments, Laboratory, Surgeries, and Ophthalmology. The main header shows the user is logged in as 'My Company (San Francisco)'. The form is titled 'Walkin' and displays the patient ID 'WI/06-02-2025/00001'. The patient's name is 'Aditya Verma', and the appointment date is '02/04/2025 08:30:00'. The responsible physician is 'Dr. Suman Bhatia'. The patient's date of birth is '11/23/1985', gender is 'Male', blood type is 'B', and marital status is 'Married'. The form has tabs for 'Comments', 'Inpatient Admissions', and 'Medical History'. The 'Comments' section is currently active. At the bottom, there are buttons for 'Send message', 'Log note', and 'Activities'. A status bar at the bottom indicates 'Following'.

- As shown in the screenshot above, this form displays all the details of walk-ins.
- Additional information can be added in the 'Comments' section.
- Once a walk-in is registered and completed, you can update its status by clicking the 'Mark as Completed' button.
- Additionally, three smart buttons allow you to manage the patient's prescriptions, evaluations, and lab tests efficiently.

Lab Test LT000001
Department Default
Patient Aarav Sharma
Evaluation EN000002
Date requested 02/10/2025 16:38:37
Doctor who requested the test
Queue
Test Type Complete Blood Count
Pathologist Dr. Suman Bhatia
Date of the Analysis 02/12/2025 16:15:36

- You can generate an invoice for the lab tests using the 'Create Lab Test Invoice' button. This button is only visible when the state is 'Completed'.

The screenshot shows the 'Hospital Management' interface. At the top, there's a navigation bar with various modules. Below it, a sub-header shows 'Lab Tests' and 'LT000001'. A blue box highlights the 'Invoice' button in the top navigation bar. The main content area shows the lab test details for 'LT000001'.

Lab Test Details		Test Information	
Department	Default	Test Type	Complete Blood Count
Patient	Aarav Sharma	Pathologist	Dr. Suman Bhatia
Evaluation	EN000002	Date of the Analysis	02/12/2025 16:15:36
Date requested	02/10/2025 16:38:37		
Doctor who requested the test			
Queue			

- As shown in the screenshot above, the 'Invoice' button is visible only when the state is 'Invoiced'.
- You can view the lab test invoice by clicking the 'Invoice' button.

This screenshot shows the same lab test details as the previous one, but the state has changed to 'Invoiced'. The 'Print Lab Test' button is now visible in the top navigation bar, highlighted with a blue box.

Lab Test Details		Test Information	
Department	Default	Test Type	Complete Blood Count
Patient	Aarav Sharma	Pathologist	Dr. Suman Bhatia

Died at the hospital ☐
Time of Death

☐
☐
Cause of Death

- If baby is deceased by some reasons then you can provide information in this 'Deceased' section.

APGAR Scores	Findings and Tests	Deceased	Notes
--------------	--------------------	----------	--------------

Breastfeeding is the recommended feeding method for newborns. Newborns sleep a lot—usually 16-17 hours per day. Their sleep is spread out in short periods, often lasting 2-4 hours. Change diapers frequently to prevent rashes and discomfort. Avoid submerging the baby in water until the stump falls off; sponge baths are recommended during this time.

- You can also provide some extra information in this 'Notes' section as shown in the above screenshot.

Glycemia: 0 Evolution

Procedures Medicaments Session Notes

- This form shows all the details of the ambulatory care of the patient.
- Once the evaluation is completed then just click on the 'Complete Evaluation' button to mark the evaluation as completed.

Procedures	Medicaments	Round Summary
Code	Notes	
87389	Infectious agent antigen detection by immunoassay technique; dengue virus.	
96372	Therapeutic, prophylactic, or diagnostic injection (subcutaneous or intramuscular).	
36415	Collection of blood for transfusion; autologous, platelet.	
Add a line		

- This will provide all the procedures details.

Procedures	Medicaments	Round Summary
Medicines	Quantity	Comment
Acetaminophen	2	Avoid non-steroidal anti-inflammatory drugs (NSAIDs) like ibuprofen, aspirin, and diclofenac as they can increase the risk of bleeding, which is a serious complication of dengue.
Oral Rehydration Solution	3	Encourage regular fluid intake, especially if the patient is vomiting. If oral hydration is not effective, intravenous fluids may be required.
Anti-Nausea Medications	1	Administer under a doctor's guidance to prevent dehydration from vomiting.

- From this we can view all the medicines details that the doctor had provide to the patient during traetment period.

Procedures	Medicaments	Session Notes
Patient presents with fever, muscle aches, and maculopapular rash consistent with dengue fever. No signs of severe disease. Treatment includes supportive care with hydration and acetaminophen for fever/pain. Monitoring for complications (e.g., bleeding, shock). Follow-up in 4 days or sooner if symptoms worsen.		

- You can provide extra information about the evaluation in this 'Session Notes' section.
